Woodlawn Upper School Book List 2023-24

NOTES: There is often more than one option for some of the core classes, so make sure you are only buying the books for the class in which your student(s) is (are) enrolled—e.g. 9th grade students are either taking Spanish or French, not both, or are either taking Algebra IB or Geometry, not both. Items in yellow most students will need to purchase. Items in grey you either will not or may not need to purchase—they might be online textbooks that are free or a book your student already has from a prior year or an optional text—see notes near to specific books. Used copies of books are both fine and recommended in order to save money, but please be advised that students are cases, required to annotate their texts, so any used copy with significant writing already in it should not be purchased/used. Also, please pay careful attention to editions — teachers have picked out specific translations in some cases, and it's important to facilitate class discussion and annotations that students all have the same words on the same pages. Thank you!
